Please someone help me, I can't start the game, it keeps crshing.. I am usually not a fan of this kind of game. However, I am quite tired recently and want to find a game which can bring the relax. This game reminds me of Rayman, which is my childhood. I spent several hours quite fun and relaxed on it and I also recommend to my friends.. great retro game. very fun. We all just bought the game for the cool achievements. However, why not just give us the achievements for passing some easy levels? I don't want to play this horrible game. Plus I had to put in even more work to actually get the achievements available for a showcase because they didn't work right off the bat. The game is boring and stupid. I have a Y and a Z in my name so I need to play through the whole game to get those available? Extremely stupid if you ask me.

Also, just to top it all off, the achievements DON'T EVEN WORK on the showcase. You have to do some extra work to make them selectable.. TRAITORS, SOLD THEIR SOULS TO ANOTHER PLATFORM!

RUN. SHOOT. ENJOY !. My favorite game since my childhood. I spent too many hours in multiplayer and story mode and now I like to relive these years. It is an awesome game but for me with a few bugs. Thanks to the community, however, the bugs were resolved in a matter of minutes. It is one of the best games for old games but I recommend it only for a discounted price.. This is a monotonous clicker that really belongs on a table app store, rather than on Steam...

I really feel like Steam started selling out when games like this hit its platform. Not surprising, we now see randomly accepted games, which are actually more like school projects and asset rips!

This is a game for wasting time, but not something I think is worth investing much into!. I have played every dungeon crawler since the great Dungeon master, but none of them ever came close to providing the fun and atmosphere of Dungeon master. That was until this game came along.

#### PROs:

- Great yet simple game mechanics that feel just right.
- Very good and sensible story line (well told).
- Hard monsters. Even a cute little pink eyed rat can wipe the floor with you. To defeat said vermin/monsters you find ways to weaken and overcome giving you a true sense of accomplishment.
- Nice graphics and ambient.

#### CONs:

- No volume sliders, can become annoying.
  - No monster killing doors, so not a true rival to Dungeon Master.. This game is too funny to take seriously (no matter that its name is "Serious Sam") You will enjoy the gameplay killing the hordes of diverse enemies and admiring the colorful graphics. This game has an uncomplicated storyline. You will travel trough the worlds where each one has it's own unique particularity. So you won't be bored.
- It's definitely worth playing as you can spend your time having a good rest!
